Legend

Sub Area

Select Zone Flow

– Study Area

____ 200 - 500

500 - 1,000

1,000 - 2,000

2,000 - 4,000

> 4,000

Note: Select zone flow represents where the estimated daily trips which originate in or end in the study area go to or come from. This map shows how such flow commutes between the study area and interstates on the study area roadways.

Source: OKI Travel Demand Model

Note: The total study area trips include trips which do not leave the study area or do not use the interstates. Such trips are not illustrated on this map.
